GENERAL CONDITIONS OF THE CONTRACT

Consultancy Services

Article 1 Purpose

- 1.1 These General Conditions of the Contract (GCC) shall apply for the purchase of Consultancy Services.
- 1.2 The Law of the Republic of Albania 'On Public Procurement' provides that the provisions of the Civil Albanian Code shall apply to the contracts of public procurement. Some provisions of this Code are expressed in the GCC as well, in order to increase the level of transparency in the contractual conditions. However, quoting some provision in this part, does not deny in any way the application of the other provisions of the Civil Code for this contract.
- 1.3 Similarly, some provisions of the Law on Public Procurement are expressed again in the GCC, in order to increase transparency in the law which regulates public procurement. However, the quoting of some provisions in this part, does not deny the application of other provisions of the Law on Public Procurement, regarding the parties' rights, duties and obligations.
- 1.4 The GCC shall apply to the extent they do not leave behind the conditions or provisions, foreseen in other parts of the contract.

The conditions of the contract also include the Special conditions of the Contract (SCC). In case of conflict between GCC and SCC, SCC shall prevail on the GCC.

Article 2: Definitions

- 2.1 "Contract" means the written agreement between the Contracting authority and the Contractor, which comprises the Tender Documents, including GCC and SCC, all attachments and completed forms, which are referred in each document.
- 2.2 "Contract Price" means the price to be paid to the Contractor, in accordance with the contract for the complete and precise implementation of his contractual obligations.
- 2.3 "Object of Contract" means all the Goods and the Related Services that the contractor shall provide, complying with the conditions of the contract.
- 2.4 "Party (-ies)" mean the signatories of the contract.
- 2.5 "Contracting Authority" means the Contracting Authority which is a party to this Contract, and which contracts the Goods of this contract. This term shall have the same meaning with the one defined in the law.
- 2.6 "Contractor" means the natural or legal person, which is party in this contract and, in accordance with the provisions of this contract, is the one who supplies the Goods.

"Services" means all the tasks to be fulfilled by the Contractor according to the contract.

A. *Kashar Lake Project (project idea designs)*

1. Sinani Walkway (length = 764 m, width = 4 m)

Sinani walkway is the continuation of Rruga Sinani. The dirty road is thought for pedestrian use and for a limited number of cars.

- a. landscape situation plan 1/500
- b. territorial (landscape) sections 1/200
- c. technical sections 1/20

2. Lake Park Gateway (length = 326 m, width = 4m)

The gateway is a pedestrian pathway which connects the motorway to the lake. This is the main access which should get the character of a main axis. The path gives access to secondary ancillary public spaces which have to be considered as enlargements of the path section, each one with its own specific character.

- a. landscape situation plan 1/500
- b. territorial sections 1/200
- c. technical sections 1/20

3. Lake Shore Pathway (length = 3665 m, width = 4m)

The pathway is a circular pedestrian ring around the lake, which takes the advance of previously existing fragments of paths. The circular ring is the structure of the lake park and connects the motorway to a larger territorial network of paths, while providing access to a whole set of facilities built around and in the lake.

- a. landscape situation plans 1/500 with punctual interventions (ZOOMS)
- b. territorial section 1/200
- c. technical sections 1/20

The Diving Platform is a free-standing concrete element placed inside Lake Kashar. It is composed by three layers of concrete triangular ceilings sustained by a system of crossing beams and cylindrical pillars.

- a. plans, sections, elevations, details 1:50
- b. axonometric view

2. Miralago

The miralago is a concrete structure, a public platform which lies at a higher level than the lake, placed in a strategic position to perfectly frame the view of the lake and the artificial dam.

- a. plans, sections, elevations, details 1:50
- b. axonometric view

3. Shelters

On the lake shore, the association of three 5 m high circular roofing elements offers to the users a shadowed place during the summer. Like Diving Platform and Miralago, Shelter was conceived as a combination of simple elements (cylindrical pillar, thin crossing beams and rounded ceiling).

- a. plans, sections, elevations, details 1:50
- b. axonometric view

4. Barbecue: brazier + grill+ table + seats

Prefabricated elements for barbecue will be spared along Lake Shore Pathway. BARBECUE is a combination of four different components: brazier, a grill and a table with seats.

- a. plans, sections, elevations, details 1:20
- b. axonometric view

5. Paravent: beach showers + fountains

Wavy half-tube concrete prefabricated structures which host facilities as showers or fountains. Free standing, they punctuate the paths around the lakes.

- a. plans, sections, elevations, details 1:20
- b. axonometric view

6. Dam

The actual dam is organized on its two sides into a natural bleacher, through the use of single concrete seats. The lake side will provide the perfect seats for fishermen, while the other side will face the Durana Valley, becoming a strong visual reference for the park from the motorway.

- a. general plan 1:500
- b. plans, sections, elevations, details 1:20
- c. axonometric view
